SYNNEX is recognized by Aruba for outstanding performance in 2017, including significant growth in the US and Canada, as well as for its contributions to the small-to-medium business segment. This marks the third year SYNNEX has been named Distributor of the Year in the US since 2015.

"We are honored to be recognized for our continued success with Aruba in the US and for our increased momentum in Canada over the past year," said Peter Larocque, President, North American Technology Solutions, SYNNEX Corporation. "These awards reflect SYNNEX' commitment to helping our partners succeed through customized offerings that address the most pressing business needs around wired and wireless infrastructure in an increasingly complex technology landscape."

In addition to its core Aruba offerings, SYNNEX provides support and training around E-Rate; access to Aruba ClearPass; complimentary services including free RF planning and a top-ranked demo program; nationwide installation and on-site survey support; flexible financing options; and exclusive VIP partner and buyback programs. SYNNEX also recently launched an Aruba-specific Wireless-as-a-Service Program, which allows partners to rely on SYNNEX for managed services without having to add internal resources.

"Aruba's long-standing philosophy of 'Customer First-Customer Last' would not be possible without our partners, who are some of the very best in the business," said Jim Harold, Vice President of North America Channels for Aruba, a Hewlett-Packard Enterprise company. "As organizations wrestle with enhancing the user experience and ensuring business resilience as they continue to adopt mobility, cloud and IoT, they need not just access to industry-leading intelligent edge solutions, but also expertise in how to deploy these products to solve real-world challenges.
